# XERO QUICK START GUIDE

### QUICK HELP GUIDE TO ACCESS AND USE XERO

#### MORTON & PARTNERS RADIOLOGISTS

#### **QUICK START GUIDE FOR XERO® Viewer**

We've put together this friendly guide to get you started with basic, but powerful functionality for day to day use.
Our Support teams are also available 24/7 to assist you with setting up and learning more about the XERO® Viewer.

However, should you like to explore on your own, you will be able to access tutorials for XERO® Viewer, by tapping the HELP button (in the top right corner), when logged into you Xero Profile.

There you will find:

- comprehensive video tutorials
- interactive quick start guides

#### Access XERO imaging at https://mobile.morton.co.za

#### **QUESTIONS ANSWERED IN THIS GUIDE:**

How do I find my study?

How do I remove markups? How do I undo any changes? How do I measure an image? How do I rotate the image? How do I window an image? (*adjust the brightness*) How do I compare a study?

How do I access my images? How do I change the layout? How do I print and save images? How do I change the layout? How do I print reports? How do I zoom or minimise?

# How do I find my study?

- Filter the list of available patient studies by typing their surname and initial (e.g. Smith,C) in the PATIENT NAME field, using a comma as a separator
- Should the relevant study not be listed, add the study date to refine the search query
- Tap SEARCH to display the results

- The PATIENT ID field is Morton & Partner's QP number and not the patient's ID number. The format should be: *QP-123456*
- Do not enter more than 2 fields in the search fields, as it slows down the search request.
- The OFFLINE button reflects your CHAT STATUS with other users and not the system status. The icon will change to ONLINE (green) if you are able to use this function.

# How do l access my images?

• Select the study and double-click to open it

Potgieter, C	Accession Study Date Modality	▼ ▼	Search	Clear		
ients	Filter Studies	×			List View	<ul> <li>Sort by</li> </ul>
	ID:	QP-278679

CR - CHEST SINGLE	VIEW Acn	: TR2446306	A	pr 17, 2017 12:46 P	М	

# How do I change my layout?

Click OPTIONS (3 dots in the image toolbar) Select your desired layout format from the drop-down

- CT and MRI studies can be viewed in CINE mode (also available from the OPTIONS drop-down menu)
- When in CINE mode, you can also navigate between images and series options.

### How do I print and save images?

#### To print a single image:

- Select the desired image,
- Select the OPTIONS icon (3 dots)
- Click PRINT SERIES 1x1

#### Or:

- Right-click on the desired image
- SAVE to store to your preferred desktop folder
- Print image(s) from selected desktop folder

# How do l access reports?

- Open the required study
- Click OPTIONS (3 dots in Image toolbar)
- Select "Study report for ...."

# How do I print reports?

- Once you have accessed the report, click the PRINTER icon in the report icon toolbar
- Select the page to print or indicate which pages to print (for e.g. 1-3) and click print.
- OR right click and SAVE the report into a preferred folder and print from there.

# How do I zoom or minimise?

On the image toolbar:

- Select the magnifying icon
- To zoom, touch image with two fingers and spread or pinch (TABLET/MOBILE ONLY) or use the mouse scroller to manage
- To pan, drag the image with two fingers (TABLET/MOBILE ONLY)

### How do I remove markups?

On the image toolbar:

- Select the RULER icon
- Tap REMOVE MARK-UP to remove any mark-ups previously made by other doctors

# How do I measure an image?

On the image toolbar:

- Select the RULER icon
- Select the Mark-up calliper from the dropdown
- Tap where you want to start the measurement and tap where you want to end

LUMBAR SPINE W/O CONTRAST 19-Nov-2001 14:00 (55555585) Return to Image toolbar

# How do I rotate an image?

In the image toolbar:

- Select the NAVIGATION icon
- The drop-down menu will provide various rotation options

# How do I window images?

(Adjusting the brightness)

- Select the BRIGHTNESS icon (sun) on the image toolbar
- The same image (sun) will reflect next to your cursor if you have selected the function.
- FOR MOBILE: Adjust the contrast by dragging your hand across the screen
- FOR DESKTOP: Adjust the brightness with the scroll wheel on your trackpad or mouse
- For CTs, the window drop-down has preset window settings for a quick change of view. To undo the window setting click on reset to 'original window level'

# How do I undo any changes?

If you want to undo any changes, simply tap the reset button to undo all image transformations.

# How do I compare studies?

- To compare two studies eg. Chest xray, tick the boxes you would like to compare
- Double click on one of the studies to open. This will show the 2 studies next to each other
